Hard-working web developer with a flair for creating elegant solutions in the least amount of time. Developed an ecommerce webapp , live chat webapp ,weather forecast webapp ,to-do webapp . Passionate about software architecture and cloud computing. Regular attendee of web developer meetups and hackathons .

WORK EXPERIENCE

FREELANCE WEB DEVELOPER
FREELANCE

06/2020 - Present

Achievements/Tasks

- Built an api to check the product availability for delievery at their pincode.
- Fix the bug.
- Built a to-do app for client by using mongoose & express.

PERSONAL PROJECTS

ShopBazaar- An ecommerce webapp
- Built using MERN stack.
- It is just like amazon app where you can search for products,add the products to cart and buy the products.
- I have used Json web token to authenticate the page &mongoose to create the models for user,products and orders.
- Used SMTP to send mail to users.

LIve chat App
- This app is built using socket.io,jquery.
- It can be used to communicate between multiusers in a room.
- In this app I developed an interface where you can join a particular room and chat.
- I also included some functionality like automatic scrolling for better user interface.

Weather app
- It is made for weather forecasting by using the location.
- I have used two api to fetch the information to user.
- One from weatherstack to get weather forecast by providing latitude &longitude.
- Another one form mapbox to get latitude and longitude by providing the location name.
